

“Does your current parts supplier offer everything Keltruck does?”

THE ORIGINAL PARTS FITTED TO YOUR SCANIA ARE OF THE HIGHEST QUALITY

– one of the reasons why the vehicles are so reliable

If your Scania requires a part, whether it is for general maintenance, service or repair, the most cost effective replacement is a Scania part.

Scania depots have over 95% availability on over 18,000 lines; every part carries a 12 month full manufacturer's labour and parts warranty, or a 3 year warranty on major units. Consequential damage cover and the Scania Assistance service are also included. Where else can you be guaranteed expert advice, comprehensive knowledge and quality to Scania's precise specification? Add to that the time that can be saved having your parts fitted by fully trained technicians who are up-to-date with the latest product knowledge and you'll begin to see even greater value for money.

So before you next buy a part for your Scania, make sure you do a true value for money comparison and ask yourself 'Does my current parts supplier offer everything Keltruck does?'

A TRUE COMPARISON REVEALS EXCELLENT VALUE FOR MONEY

Only official Scania parts have all of the following benefits included in the price:

- Over 95% parts availability on over 18,000 parts
- 12 months manufacturer's parts and labour warranty
- FREE parts delivery
- Convenience of 90 dealer points
- No cost for vehicle recovery
- Scania Assistance cover on every part
- Consequential damage cover included
- Quality to Scania's precise specification
- Expert advice and comprehensive knowledge
